

Infor Expense Management Fast Start

➔ Bring the best practices in employee expense management to your business economically and rapidly with the Infor Expense Management Fast Start program.

Do business better.

Your best opportunity to cut costs may come from controlling employee expenses, but thoughtless, haphazard cost cutting can do more harm than good. By adopting a systematic approach to employee expense management, you can do more with less and actually improve overall performance. A sophisticated, end-to-end expense management solution, tailored for rapid, non-disruptive implementation, will help your organization cut costs and achieve operational excellence. Infor™ Expense Management is a comprehensive expense management solution, which includes end-to-end expense report automation, and reporting and analysis functionality. The solution also manages employee-initiated requests for vendor payments, time tracking, and includes a full range of powerful expense management capabilities for firms of every size.

Leverage experience.

Companies in more than 90 countries trust Infor Expense Management to manage the complexity of employee expense control, which can involve thousands of trips, vendors, and transactions. Infor's expert staff brings decades of experience to the task of helping you build a solution with the right capabilities, delivery model, and scope for your organization. That's also why we've made Infor Expense Management the most configurable solution of its kind. You need an expense management solution that supports the specific needs of your business, no matter how large or small your organization or your budget—Infor Expense Management delivers.

INFOR™

Get business specific.

The Infor Expense Management Fast Start program gives you a quick, economical, non-disruptive path to world-class expense management. Its preconfigured, template-based approach offers the options and policies that embody the best practices of the world's top-performing organizations. Our customers consistently achieve major performance improvements in many areas, including:

Better policy compliance—Ensure compliance with expense policies and prevent employees from claiming unauthorized expenses in the first place.

Lower processing costs—Streamline the process of trip planning, expense report creation, management approval, and financial reporting.

Improved visibility—Get an all-inclusive, real-time view of employee spending to improve operations even more.

Streamlined back office operations—Gain more accurate and up-to-date expense information connected directly to your financial, payroll, and HR systems.

Flexible delivery options—We offer an unparalleled range of software deployment options so that you can use the power of Infor Expense Management in the way that suits your organization best.

Broadest available range of optional features—Our Fast Start program gives you a great place to start, and doesn't limit where you stop. Infor Expense Management is a full-featured solution that includes:

- Travel Plans—for pre-trip authorization and travel procurement.
- Expense Reports—for automating the entire expense reporting process from report creation to approval and reimbursement, including capturing corporate card transactions.
- Payment Requests—for automating employee-initiated requests for vendor payments.

- Timesheets—for quick and accurate time capture for exempt and non-exempt employees.
- Mobile Device Support—providing expense management capabilities from a PDA device.

With support for multiple languages, multiple currencies and tax rules for hundreds of international jurisdictions, Infor Expense Management is a solution that enables global business.

See results now.

Infor Expense Management customers typically earn a return on their software investment in less than 12 months. By choosing the world's most trusted and flexible solution for employee expense management, you've moved closer to world-class performance.

About Infor.

Infor acquires and develops functionally rich software backed by thousands of domain experts and then makes it better through continuous innovation, faster implementation options, global enablement, and flexible buying options. In a few short years, Infor has become one of the largest providers of business software in the world. For additional information, visit www.infor.com.
